

**PRODUCT RANGE**  
**CORONA-RESISTANT ENAMELED ROUND**  
**COPPER WIRE**

Temperature resistance level	Level 200, Level 220
Product model	Q(ZY/XY)BP-2/200, QP-2/200
Specification range	Φ0.800-2.000mm
Execution Standard	JB/T 10930-2010
Main raw materials	Nanjing Huaxin low-oxygen copper rod, Allentas corona-resistant paint.
Equipment technology	Continuous enameling machine, composite coating, mold painting, online testing.

Corona-Resistant Enameled Round Copper Wire has some advantages: Corona Discharge Prevention, Enhanced Dielectric Strength, Improved Insulation Performance, Extended Lifespan, Reduced Electromagnetic Interference, High Voltage Applications, Compatibility with Harsh Environments.
