

PRODUCT RANGE

HIGH-SPEED MACHINE OF ELECTRONIC
APPLIANCES COPPER WINDING WIRE

| | |
|------------------------------|--|
| Specification range | $\Phi 0.050\text{--}0.300\text{mm}$ |
| Temperature resistance level | Level 180, Level 155, Level 130 |
| Main raw materials | Huaxin high-quality low-oxygen copper rod, nominal resistance. |
| Product packaging | PT4, PT10, PT15, PT25, large-capacity packaging, reducing the number of disk changes and joints. |

High-Speed Machine Of Electronic Appliances Copper Winding Wire has some advantages: Enhanced Conductivity, Low Signal Loss, Reduced Electromagnetic Interference, Temperature Stability, High-Frequency Compatibility, Longevity and Durability.
