

PRODUCT RANGE
HIGH-SPEED MACHINE-WOUND MOTORS
INSULATED ROUND COPPER WIRE

Product model	QZ-2/155
Specification range	Φ0.400-1.500mm
Executive Standard	GB/T 6109.2-2008
Temperature resistance level	Level 200, Level 180, Level 155
Main raw materials	Oxygen-free copper rod, Alantas insulating paint.

Transformers Enameled Flat Copper Wire has some advantages: High Conductivity, Low Resistance, Temperature Stability, Durability.
