

PRODUCT RANGE

INDUCTOR ENAMELLED ROUND COPPER WIRE

Product model	QZ-2/155
Specification range	Φ0.400-1.500mm
Executive Standard	GB/T 6109.2-2008
Temperature resistance level	Level 200, Level 180, Level 155
Main raw materials	Oxygen-free copper rod, Alantas insulating paint.

Inductor Enamelled Round Copper Wire has some advantages: Enhanced Conductivity, Low Signal Loss, Reduced Electromagnetic Interference, Temperature Stability, High-Frequency Compatibility, Longevity and Durability.
